JACKSON SQUARE IS HAMILTON

EVERYTHING IS CONNECTED TO US

"It's located next to Jackson Square...", is the quote from the real estate agents. Everyone wants to be connected to the Square because Lloyd D. Jackson Square is...the heart of the city.

Located at Hamilton's key downtown intersection, Jackson Square is immediately accessible to all public transportation routes, major inter-city expressways, the Hamilton Convention Centre, the Public Art Gallery and Hamilton Place Theatre Auditorium. Hamilton's main branch Library, the famous 150 year old indoor Farmers' Market, 18,000 seat Copps Coliseum and Trade Centre and the 5 star Sheraton Hotel are all a simple climate controlled, indoor step away.

YOUR SPACE

Jackson Square offers you space to work; with over a million square feet of flexible office space featuring floor plates from fifteen to forty thousand square feet in any of four distinctly designed office buildings, with underground parking for over one thousand cars. Space to relax; at the base of a cascading indoor waterfall

surrounded by a fourteen floor hanging garden atrium. Space to socialize; to the pleasant sounds of summer lunch time concerts on our five acre landscaped plaza. Space to shop; with over 250 retail stores, restaurants and banks but, most importantly, Jackson Square will give you space to be you.

WORKING TOGETHER

The business environments of the next century will require the highest levels of information integration. Office environments will be ergonomically designed for ease of internal movement and the personal comfort of employees.

Working as a team has never been more important. From our own team of over 200 building services support staff, to the office environs of the next century and the integrated business support of lawyers, accountants, financial institutions, brokerage houses, insurance firms, government services and corporate head offices; Jackson Square offers you the chance to make the connection. You can do business at Jackson Square.

For information on leasing opportunities in the "core connection", Lloyd D. Jackson Square, contact Jim Thompson at Stelco Tower, 100 King Street West, Suite 330, Hamilton, Ontario L8P 1A2.

Business and the Arts in Partnership: Seeing the Big Picture

When Robert Whale painted this view of the city in 1862, Inch Easterbrook & Shaker was a fledgeling law firm, the Art Gallery of Hamilton didn't exist and neither did most of the businesses that have made this city what it is. Our population has grown from 19,100 then to 317,000 today!

The Robert Whale landscape is one in a collection of over 7,000 important works at the Art Gallery of Hamilton.

At Inch, Easterbrook & Shaker, we recognize that Hamilton's business and cultural institutions share a common goal — to make this a vibrant, thriving community. A strong partnership between business and the arts helps make this happen. We urge you to invest in your community by getting involved with the Art Gallery of Hamilton. You can benefit by participating in sponsorships and joining the circle of corporate members. Give them a call at (416) 527-6610.

Founded in 1858, Inch Easterbrook & Shaker is one of Canada's longest-established law firms. Throughout its history, members of the firm have been dedicated to professional excellence and service to clients and community.

The Art Gallery of Hamilton is located in the centre of the city, at 123 King Street West, Hamilton. For more information, please call 416-527-6610.

THE INDEPENDENT FINANCIAL PLANNING PROFESSIONALS

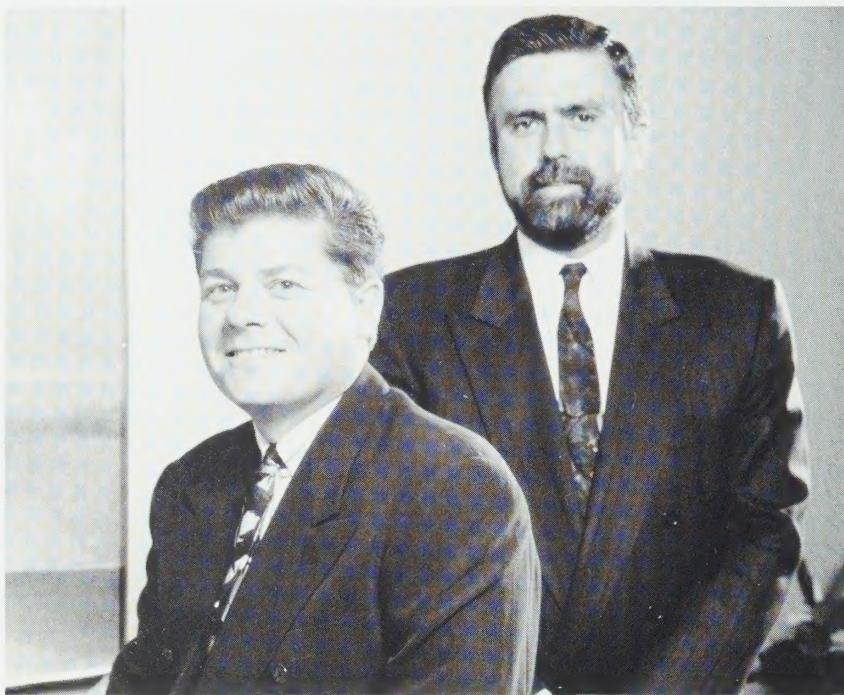

Financial Concept Group is a financial planning firm offering a complete range of independent financial services and products to both individuals and companies.

Comprehensive personal financial planning is the main service offered by Financial Concept Group. With local offices in Hamilton and Burlington, Financial Concept Group provides advice tailored to the individual investor's needs.

"A close working relationship between the investor and an expert advisor is the key to success in today's complex financial environment", explains Don Bridgman, one of the original founders of the firm back in 1981. "At Financial Concept Group, we realize that there is only one reason people invest money, to provide them with the financial resources to achieve their goals in life. This is the underlying basis of financial planning — the recognition that each person has different goals and, therefore, needs a unique investment strategy."

Rick Kennedy, one of the two managing partners for the two local offices, explains, "Because we are not a fee-for-service firm, we are more accessible to the average person. We have access to virtually hundreds of investment products, allowing us to give our clients objective advice. We also specialize in tax planning, helping individuals to dramatically lower the amount of income tax they pay."

This objectivity is one characteristic that marks Financial Concept Group as unique among the

many different types of financial services firms today. As an independent financial services company, Financial Concept Group is able to approach the entire investment market to help their clients obtain the highest rate of return from a guaranteed investment as well as profit from the most lucrative growth sectors in the Canadian and international equity markets.

Today, Financial Concept Group has over 130 professional advisors in over 27 offices, representing literally hundreds of different financial institutions and products (trust companies, mutual fund companies, insurance companies, etc.) Financial Concept Group also offers a wide range of real estate and other tax-

assisted investments and a comprehensive insurance planning and brokerage service. Besides personal financial planning, Financial Concept Group also provides a number of services to corporations. These include a speaker service, customized corporate retirement planning and financial planning workshops, group RRSPs and group insurance and benefit programs.

From its inception, Financial Concept Group has been committed to maintaining the highest standards of financial planning in the industry and to constantly seek out new and innovative financial products and services to improve our ability to assist our clients in realizing their financial goals.

President Len Falco and his team of specialists have expertise in the many facets of business operations. Their objective is to provide hands-on, common sense solutions to the challenges of running a business in today's complicated environment.

The impact of rapidly changing Employment Legislation, and slow economic recovery, create difficult decisions for business managers. Many find it easier to adopt an attitude of "WAIT and SEE". LCM ASSOCIATES is an affordable, objective resource; acting as an effective extension of your company's management team. LCM's consulting services are customized for each client's specific needs.

A NEW IDEA ABOUT GROWTH IS EMERGING

There was a time when growth for growth's sake was a generally accepted business philosophy.

Times have changed.

Today, the concept of sustainable growth has shaped a new vision for business.

It's a vision that blends a genuine commitment to the environment with a clear and consistent focus on quality.

It will take effort not just from business, but from all of us, to make this vision a reality.

But that's as it should be. To give birth to something truly beautiful is never easy.

NATURAL GAS
The
ENVIRONMENTAL CHOICE

More and more every day natural gas energy provides for our modern hi-tech way of life. It heats our homes, fuels our factories and businesses and even powers our cars. Natural gas is indeed the energy of tomorrow, as well as today.

Like oil and coal, natural gas is a fossil fuel. However, not all fossil fuels are the same. As a result of its unique molecular make up, natural gas offers some distinct environmental advantages.

- Natural gas production and use contributes less to global warming than other fossil fuels.
- Natural gas combustion does not damage the ozone layer.
- Natural gas for vehicles contributes less to urban smog than gasoline and diesel.

New and more efficient uses for natural gas are continually being introduced, for example the concept of co-generation in large industrial plants wherein electricity and heat for processing are produced from a single source, natural gas. And when one considers that natural gas is priced very competitively, it indeed is the energy of the future.

Natural gas ... the natural choice.

Who's minding the store? Mary Gallagher is!

“Now it's all much easier. It's incredibly faster. A three-hour reordering job has been cut down to about 20 minutes. I don't have the support of a team of accountants, receivers, buyers, etc. I wear all the hats in this business. The organization has been changed to such a point . . . it's so much more streamlined and integrated. It's like having an extra staff member.”

This is just part of what Mary Gallagher had to say two months after her Pinpoint Store retail system was installed. She owns and operates The Compleat Kitchen at 87 Yorkville Avenue in Toronto.

WHO'S MINDING YOUR
STORE? To find out how we can help
improve your retail operation and

THE FLUKE TRANSPORTATION GROUP

unites a complete package of services, with the personalized approach to customer service which has been Fluke's tradition for 60 years. Whatever service you require, you can be sure of this - we go that extra mile to customize our service to meet your individual needs and priorities.

Yes - we are big enough to meet all your needs. But we will never let "big company" inflexibility come between us and our customers...between our people and yours.

TRUCKLOAD

FLUKE TRANSPORT has earned a front-running reputation for same day, reliable truckload service throughout Ontario's Golden Horseshoe and beyond. Central dispatching ensures efficient control of every load, every mile of the way. The Fluke fleet includes a full range of equipment, from vans to flat beds, for all types of commodities. In addition, our dedicated service gives companies the control and advertising benefits of a private fleet, without the costs of capital investment, maintenance, and driver supervision.

LESS-THAN-TRUCKLOAD

COLLINS TRANSPORT extends the Fluke commitment with a 70-year reputation for consistently reliable LTL service within the Hamilton and Toronto corridor. In addition, Collins' LTL service has been expanded to include the Niagara Peninsula. All trucks are linked to central dispatch by radio for flexible response to last minute pick-up requests, and same day delivery service.

WAREHOUSING AND DISTRIBUTION

BURLINGTON TERMINALS provide a broad range of product fulfillment services at their 250,000 sq. ft. climate controlled facility and 7 acres of securely fenced outside storage space. Our computerized inventory management system feeds shipments to customers on a pre-scheduled timetable or on an "as-needed" basis. The terminal also functions as the customer's distribution arm, by taking care of consignments to any destination. In addition, we consolidate consignments from various sources for warehousing or transhipment.

Since the du Maurier Ltd. Centre opened last fall, it has become one of the most popular venues in downtown Hamilton. With spaces to accommodate from 80 to 750 people, it has already been the site of receptions, corporate presentations, financial seminars, retirement parties, award shows and much more.

Here are just a few of the accolades that have come our way:

"I found the theatre, staff and the service to be most conducive to the success of our Trimark seminar. We will be back."

Amelia Doro, Marketing Director
Financial Concept Group

"We had been looking for the ideal location for our awards evening and a venue that displayed the same concern for excellence that we are promoting within our industry."

Ron Wilkie, Chairman

The Chamber

January 1993

Dear Chamber Member:

Attached please find your complimentary copy of the new Hamilton and District Chamber of Commerce/Region of Hamilton-Wentworth **"1993 BUSINESS DIRECTORY & BUYER'S GUIDE."** We commend it to your attention and use.

The new Directory is the first of its kind in the Greater Hamilton Region. It not only merges the business data banks of The Chamber and Region, but it introduces S.I.C. Codes for product and service sourcing for the first time.

Chamber members should note that although the format in the Buyer's Section of the Directory has changed somewhat because of the introduction of S.I.C. Codes, the multiple listings they enjoyed in previous issues of the former Directory have been retained. Please note: the Directory contains a special instructional page which has been designed to explain how to use it to your best advantage.

Obviously it is impossible to be totally up-to-date on all listings, but we have attempted to do our best. If a change in your listing is required please advise us by utilizing the area below. We will publish addendum sheets from time-to-time which will update you on changes to all existing and new listings, thereby keeping your Directory as current as possible. When provided, please attach them to the book. Affordable advertising and promotional opportunities in the 1994 edition of this publication are now available (publication: Fall 1993). Don't miss out. Inquire now simply by completing and returning the bottom portion of this letter, either by mail or fax.

Our thanks to all who made this new Directory possible, including The Regional Municipality of Hamilton-Wentworth (Economic Development Department). We also recognize and thank the advertisers who participated. Without them it simply would not have been possible. Their demonstration of confidence in the publication allows us to showcase the depth, diversity and quality of products and services which make Greater Hamilton such a dynamic community in which to do business. Use your "Greater Hamilton Business Directory & Buyer's Guide" often - the results will be beneficial.

Kindest regards,

It used to be pretty easy to make your money grow.

Investments fell easily into categories, based mostly on amount of risk and potential reward. For a balanced portfolio, the investor would hold some bonds and place the rest into strong, reliable, blue chips. No problem. And not much thinking required.

That was then. This is now.

Today, it takes insight and perspiration to build a good portfolio. Is General Motors a strong, reliable stock in the '90s? Is IBM? How should today's investor look at real estate or natural resource stocks?

Around the world, there are fewer and fewer easy, automatic investment choices. That's why the need for blue chip stocks has been replaced... by the need for blue chip thinking.

Blue chip thinking is based on strong research, reliable analysis, and a recognition that this is 1993, not 1983 or 1963. Blue chip thinking is also a little quicker and a little smarter than the competition... because it has to be.

Blue chip thinking is what we do at Midland Walwyn.
